From the President:

I received a notification from the New Gloucester Fair. They are putting on a two day event this year. The e-mail follows:

My name is Scott Doyle and I am the Director of the New Gloucester Community Fair held at the New Gloucester Fairgrounds, just in front of the Airdrome off of Bald Hill Road. On October 20 & 21 we will be holding our annual Community Fair. This year is the first year that we are hosting a Sunday and this day is known as Big Boys Toys Day. I am curious to see if your club will demo your RC planes and put on a show, weather permitting. Eric Waterman is aware of this event as we set our fireworks off on his property. The Sunday event runs from 10A-3P your participation would be greatly appreciated by us and enjoyed by many families. Any other clubs are welcome as well. I will be contacting Ray & Robin Hobby to have them spread the work as well. We do have water access along the river, if any of your member have floats they can demo on the water,.

Please give me a call anytime on my cell at 207-318-5619.

I called Ray and he said he will be contacting Scott Doyle. If anyone has interest in this event, contact Ray. As I understand, there are certain qualifications and restrictions that apply to such events so don't be disappointed if you are not able to participate in flying due to those restrictions. I know that static displays are always a big hit. Check ahead for table space/requirements etc. Let me know if we need to make up some club information handouts to make available. There may be a club booth also, contact the field marshal for information on that.

This meeting is nominations for officers. We will have a fuel raffle and plane of the month competition. Hope to see you at the meeting on Thursday October 11, 2007 at 7pm downstairs at the AmVets hall in New Gloucester.

Nelson Frost

Fall is a great time to enjoy flying. Don't put away those airplanes just yet. The colorful leaves are beautiful but so is a plane silhouetted against the bright blue autumn sky.
